About Me

I am a recently graduated mechanical engineer. During my education and internships, I focused on applying theoretical knowledge to practice and continuously improving myself. I have a keen interest in fundamental engineering topics such as Fluid Mechanics and Heat Transfer.

During my studies, I had the opportunity to gain field experience by interning in the production and quality control stages of large-scale projects like a nuclear power plant. I am eager to start my career in a position related to production, quality control, or design, where I can learn new skills and contribute to my team. My interest in different cultures and languages further supports my motivation to learn.

Internship Experience

- Mar 2026 – Apr 2026 **Organization Intern (ME 322)**, İÇTAŞ Industrial Pipe Logistics and Construction, Silifke, Mersin
- Observed the workflows and organizational structure of steel construction production processes for the Akkuyu Nuclear Power Plant project.
 - Had the opportunity to examine Quality Control and Non-Destructive Testing (NDT) processes in accordance with Russian Nuclear Standards (PNAE G-7).
 - Gained knowledge about production data tracking, reporting, and Occupational Health and Safety (HSE) field applications.
- Jul 2024 – Aug 2024 **Manufacturing Intern (ME 200)**, İÇTAŞ Industrial Pipe Logistics and Construction, Silifke, Mersin
- Followed production processes on-site for 30 working days at a facility producing steel structural elements for the Akkuyu NPP.
 - Gained practical experience in machining, TIG/Submerged arc/Argon welding, metal forming, cold forging, threading, and bending operations.
 - Observed the operation and production standards of Ajan CNC plasma cutters, SMARC lathes/milling machines, and Dextra threading machines.
 - Participated in the production processes, technical drawing interpretation, and quality control stages of orders TS 283.24 and 00053.24.
 - Internship notes:** <https://theosmanyildirim.github.io/me-200-yaz-staji-1/>

Education

- 2022 – Jun 2026 **Mechanical Engineering**, Sütçü İmam University, Kahramanmaraş, Turkey
Graduated

Skills & Interests

- Coding** Vibe Coding (Advanced with AI)
- Technical Skills** SolidWorks (Intermediate), AutoCAD, Zetacad, Python, MATLAB, Onshape (Basic)
- Other Tools** Git, GitHub
- Languages** English (A2 - B1), Japanese (Basic), Chinese (Basic)
- Proficiencies** NDT (Radiographic/Visual Inspection) awareness, HSE Rules, Production Tracking

Interests History, Anthropology, Computer-aided design, artificial intelligence, data analysis, robotic systems, Far East cultures
